(email us for details)**

**We can rent you one of our
rooms!**

**If you don't see a safety
course you need, just ask us!**

August 2015

Issue 8

AUGUST IS NATIONAL BACK TO SCHOOL MONTH

As summer turns to fall the back-to-school season begins. Remember to safely share the road with buses, pedestrians, and bicyclists. Whether children walk, ride their bicycle or take the bus to school, it is extremely important that they - and the drivers around them - take proper safety precautions!

STUDENT SAFETY TIPS

WALKING TO SCHOOL:

- Always use sidewalks when available
- If there's no sidewalk, walk facing traffic
- Always look both ways before crossing the street
- Use crosswalks/crossing guards whenever possible

RIDING A BIKE TO SCHOOL:

- Always wear a properly fitted helmet
- Ride with traffic in a single line
- Come to a complete stop before crossing street
- Walk bike across street

RIDING THE BUS TO SCHOOL:

- Stand 6ft from the curb/bus stop area
- If need be, cross in front of the bus
- If necessary, walk on the side of the road until you are 10ft in front of the bus
- You and the bus driver should always be able to see each other

DRIVER SAFETY TIPS

- Always obey school zone speed limits
- Watch for darting children
- Obey the crossing guard
- Exercise caution around school buses
- It is illegal to pass a school bus that is stopped to load/unload children
- On a two lane road or a divided road with no median you must stop for bus
- On a two lane road with a median opposing traffic does not have to stop

Let's get together!

If you have a safety need or want for your company or employees ...

Do you have safety information to share...

Would you like to contribute to our newsletter...

Are you looking for assistance finding an employee/employer...

Give us a shout! Call, email, or find us on Facebook!

We will help you connect with our resources!

(386)253-6400 ext. 114

stacey@sunshinesafety.org

Information Exchange:

We network with hundreds of companies around the state and frequently receive requests for services, inquiries about potential employees/employers, and more. In this new section we would like to offer everyone the opportunity to use our network of resources. If you have a need for a particular kind of employee, would like to send us your resume for help finding employment, if you'd like to have an onsite class, but don't have enough people...let us know and we will try to help.

Here are some of our most recent requests:

- ♦ We were recently asked if we could offer an IMSA Roadway Lighting course. If you are interested in joining in on this class let us know! It will be limited seating.
- ♦ We have received multiple inquiries asking if we know anyone who has an Advanced Maintenance of Traffic certification (with experience in the field) looking for employment. If you know anyone who fits this description give us a call or shoot us an email.
- ♦ Do you know anyone who has a Traffic Signal Technician Level 3 certification with experience who is looking for work? Let us know because we have had inquiries about this as well.

To submit a request, respond to request, or to see our most recent information exchange email stacey@sunshinesafety.org, like us on [Facebook](#), or follow us on [Google+](#) !!

USE OUR RESOURCES TO
INFORM YOUR PEOPLE!

Exclusive Member Benefits

With your SSC membership you receive discounts on some of our most popular classes including Intermediate Maintenance of Traffic, Intermediate Maintenance of Traffic Refresher, and Fiber Optics for ITS.

- In today's ever-changing technologically inclined society, it seems there is no end to the passwords we need to remember to protect our valuable devices, but have you password protected your most valuable possession? Password protect your family! Teach your children a password that only you and he/she know. That way if someone approaches them saying "Your mom/dad had an accident" or "Your mom/dad sent me to get you" your child can verify authenticity.
- Have you mapped "safe zones" for your kids for when they are out? Map your child's common routes to friends houses, school, the store they like to buy candy from. Along those routes find places you know your child can run to if they get into trouble (libraries, community centers, trusted neighbors).
- Do you have "meeting places" in case of a family emergency? What if a natural disaster struck and you were separated from your children? Where would they go? Designate places where you can meet up if you get separated (Ex. If something bad happens we will meet at the pond down the road). This is also a good plan every time you go to big places like malls or theme parks (Ex. If we get separated meet at the front gate).
- If your child has a device that can go online (phone, iPod, etc.), turn on their GPS locator. If a GPS locator is not installed download one from your online store and make sure it stays active.

COMING IN SEPTEMBER!!

Utility Safety Boot Camp
August 31 -September 3 8:30-5:00
\$325 Members/\$375 Non-Members

It is important that utility workers be aware of workplace hazards and how to protect for injury/illness.

Topics for this Course Include Florida CEUs 3.1:

- 10 Hour OSHA GENERAL INDUSTRY CARD
- * 1.0 DW/WW/DS CEUs (Florida)
- 10 Hour OSHA CONSTRUCTION CARD
- * 1.0 DW/WW/DS CEUs (Florida)
- Collection System Safety
- * 0.6 DW/WW/DS CEUs (Florida)
- Risk Management Program
- * 0.5 DW/WW/DS CEUs (Florida)

And more...

This course is structured for safety officers, human relations personnel, chief operators, maintenance foremen, and plant superintendents.

Arc Flash Training
September 11 8-5

\$285 Members/\$315 Non-Members

Employees must follow the requirements of the Arc Flash Hazard label by wearing the proper PPE, use of insulated tools and other safety related precautions, including not working on or near the circuit unless you are a "qualified" worker. A qualified person is defined as one who has received training in and has demonstrated skills and knowledge in the construction and operation of electric equipment and installations and the hazards involved.

Additional requirements for qualified persons:

- The skills and techniques necessary to recognize exposed live parts
- The skills and techniques necessary to determine the nominal voltage of exposed live parts
- The clearance distances specified in 1910.333(c) and the corresponding voltages to which the qualified person will be exposed

Hazwoper 40 Hour
September 21-25 8:30-5

\$750 Members/\$895 Non-Members

The HAZWOPER standard, 29CFR 1910.120(e), requires 40 hours of training off-site and three days of field experience in order to work on a hazardous waste site. Course topics:

- Proper selection and use of PPE
- Hazard assessment techniques
- Air monitoring principles
- Decontamination
- Permit procedures for confined spaces
- Hazardous properties of chemical wastes
- Regulations for management of hazardous wastes

This course incorporates hands-on drills with "Level A" operations at a spill site.

Recommended Videos of the Month

Our children are our most valuable treasures in society. They are our future and it is our job as adults to prepare them and be prepared for them. Use our videos to educate yourself and the children in your life whether they are your children, grandchildren, nieces or nephews. Let's all be safety minded for our future by watching these videos:

- 2736 Stranger awareness for kids
- 2677 Kid's guide to School Bus Safety
- 1817 School Safety - It's not just for kids
- 2501 School Bus Emergencies - Make seconds count
- 1595 How to safely evacuate a school bus

DRIVER IMPROVEMENT "TRAFFIC SCHOOL"**GET EDUCATED AND YOU CAN:****Reduce or avoid points/Receive Insurance Discounts/Keep your "Safe Driver"****\$\$ Save money \$\$**

We are the original local traffic school, serving the area since 1973. That means we'll be around if you ever need to verify attendance or get a replacement certificate. Our instructors are experienced, state certified, professionals. We offer secure classroom facilities throughout the 3 county area with Spanish speaking customer service representatives. There are many on-line & video classes available.

We will meet or beat all competitors' classroom prices!**Courses available include:**

- ♦ **First Time License Course (D.A.T.E.):** 4 hour course satisfies the state requirement for new drivers to obtain their learner's permit. **Use the code MEMSSC for a \$5 discount when taking classes on campus!**
- ♦ **Basic Driver Improvement (BDI):** 4 hour course for point reduction, TCAC, court order, or DMV order. **Use the code MEMSSC for a \$5 discount when taking classes on campus !**
- ♦ **Advanced Driver Improvement (ADI):** For license suspensions and court requirements.
- ♦ **Intermediate Driver Improvement (BDI-8):** An 8 hour on-line, court ordered program
- ♦ **Aggressive Driver:** A court ordered program for drivers charged with 2 or more simultaneous moving violations
- ♦ **Coaching the Mature Driver:** Insurance discount course for drivers age 55 and better, approved by the State of Florida

All traffic classes provide a hard copy certificate of completion and electronic notification to the DHSMV when applicable!!

The Council is dedicated to making our community a safer place to live, work, & drive.

Mission Statement

It is the mission of The Sunshine Safety Council, Inc. to promote an awareness and response to safety issues on the part of individuals, private and public organizations, and society. In order to achieve its mission, the Organization will engage in educational activities which result in increased awareness and behavioral response to unsafe conditions at home, at work, and in the community.
